Services Not Covered while Pregnant

If you need to see the Doctor outside of the scheduled weeks you will be charged for these consultations as they are not covered by the scheme unless you have a significant illness such as morning sickness, pregnancy induced diabetes, or hypertension.

Certain services which you may require as part of routine antenatal care are not covered by the Antenatal Scheme.

*Charges apply for the following:

B12 Injections	20
Glucose Tolerance Test (can be facilitated at CUMH however a charge may apply)	40
Urine/Blood/Swabs Sample checks – Phlebotomy/Courier charge (Private & Medical Card Holder)	10
Post pregnancy care unless part of the 6 week check example wound infections, mastitis, episiotomy infection are now NOT covered under antenatal care.	

It is worth noting that visits not associated with your pregnancy are not covered by the scheme and if you do not have a medical card or doctor visit card then there will be a charge for these visits eg chest infection, urine infection etc
